

Hyper Medozon comfort: For normobaric and hyperbaric ozone therapy

The Hyper Medozon comfort provides the whole spectrum of the ozone therapy. It is especially developed for the hyperbaric big autohaemotherapy. During this therapy procedure a repeating function is available.

Highlights of Hyper Medozon comfort:

- equipped with an air trap for more safety at the reinfusion
- excellent operating comfort through an intuitive Touchscreen with icons
- multiple setting options for reacting to individual patients requirements
- multilingual operator guidance
- Luer-Lock connections allow a maximum compatibility to the disposables and the accessories, e.g. the Aquazon
- integrated UV-Analyzer for concentration measurement
- suitable for the hyperbaric and normobaric big autohaemotherapy, syringe withdrawal, permanent gassing, vacuum function, water-ozonization (via Aquazon) and intestinal insufflation

*Weiko cart 18140 optional available.

Technical data:

Name of appliance:	Hyper Medozon comfort
Power supply:	100-240 V / 50-60 Hz
Power input:	190 VA
Ozone concentration:	2-80 µg/ml (control via analyser)
Flow rate:	1,0 l/min
Dimensions (BxHxT):	424 x 185 x 388 mm
Weight:	13,5 kg (with airtrap)
Product category acc. to MP-directives 93/42 EWG:	II b

- Ord. no. 16675
- Ord. no. 16676

Effective date: 09/2018
